Real Mathematical Analysis, C. C. Pugh, Springer

Grading

There will be two midterms (1/28 and 2/23) and a final exam. Homework will be assigned weekly, and is due the Tuesday after it is assigned. The two lowest homework scores will be dropped. I will compute two final grades for you as follows:

Grade 1. Midterms 20% each, homework 20%, final 40%

Grade 2. Best midterm 20%, homework 20%, final 60%

You will receive the highest of these two grades.

No late homework will be accepted.

There are no make-up exams.

Homework

It can be very useful to discuss your homework assignments with other students in the class. However, please make sure the final write-up is done on your own.

Office Hours

Office hours are on Monday and Wednesday from 2-3. Please feel free to contact me if you would like to come at another time.
