19-23 July
Cairns
Australia

Organising Committee

Mark Gould (*The University of Queensland*)

Murray Batchelor (*The Australian National University*)

Jan de Gier (*The University of Melbourne*)

Jon Links (*The University of Queensland*)

Topics

General aspects of statistical physics

Mathematical aspects

Nonequilibrium processes

Quantum systems

Fluids and soft matter

Surfaces and interfacial phenomena

Non-linear phenomena

Disordered and glassy systems

Biological physics

Statistical modeling of biological data

Interdisciplinary topics in statistical physics

IUPAP C3 Commission on Statistical Physics

Chair: Henri Orland (*CEA Saclay*)

Vice Chair: Sriram Ramaswamy (*Indian Institute of Science*)

Secretary: Margarida Telo Da Gama (*Lisbon*)

Plenary Speakers

Rodney Baxter (*ANU*)

Mike Cates (*Edinburgh*)

Sergio Ciliberto (*ENS Lyon*)

Bertrand Eynard (*CEA Saclay*)
